NDT and Technical Training, Qualification Services and Consulting

QUALITY POLICY STATEMENT – 2016

Our Quality Policy is to provide a high and consistent standard of NDT consultancy, training and examination services, which fulfill the requirements and expectations of the customer. The nature of the company's activities places particular emphasis upon experience, expertise, capability, reliability and quality.

In order to implement this policy, the Quality Programme of Aerospace Inspection Training is:

- controlled meets the requirements of BS EN ISO 9001:2008, PCN CP9 and the BInstNDT Training Establishment Accreditation Scheme
- in conformance with contractual and regulatory requirements
- carried out in an efficient and professional manner ensuring that all necessary resources both human and materials are available
- Able to address the customer's present and future requirements.

Simon Wright
