

NDT Training & Examinations

Aerospace Inspection Training Limited (AIT)

has been providing training and examinations in Non-Destructive Testing (NDT) to the international aerospace industry for over 30 years.

AIT Ltd prides itself on the quality of all the services we offer. The company is approved by the British Institute of NDT and is compliant with BS EN ISO 9001 for its training and examination services. All training and examination personnel are certified in EN4179, PCN AERO and/or ASNT to Level 3 standard. They also hold additional company specific Level 3 approvals such as Rolls Royce, Airbus, Boeing, GKN Westland Helicopters and Spirit Aerosystems.

All courses and examinations are available at our purpose-built headquarters, conveniently situated near Stansted International Airport, or can be offered by our Level 3 personnel based at Manchester and Prestwick Airports. Alternatively, AIT Ltd can provide training and examinations at any of our customer's premises throughout the world. Examinations are offered to meet the requirements of BS EN ISO 9712 using the PCN AERO examination and certification scheme or can be provided to meet EN4179/NAS410 or ASNT SNT-TC-1A requirements.

Our highly skilled and experienced training staff, together with a comprehensive range of aerospace NDT training and examination samples, have established the company as one of the world's premier aerospace training and examination organisations.

We also offer customized training and examinations, tailored exactly to the client's needs.

NDT Training Courses available:

- Liquid Penetrant Testing (PT)
- Magnetic Particle Testing (MT)
- Eddy Current Testing (ET)
- Ultrasonic Testing (UT)
- Radiography Testing (RT)
- Conductivity Testing (CT)
- Bond Testing (BT)
- Thermography Testing (IRT)
- Visual Testing (VT)
- Etch Testing (ETCH)
- Hardness Testing (HT)
- Phased Array Ultrasonic Testing (PAUT)

Additional Courses:

- Introduction to NDT
- Radiation Protection Supervisor
- Basic Radiation Safety Training
- Level 3 Preparation
